

Renovation, Repair and Painting (RRP) Certification Training

On April 22, 2008, EPA issued a rule requiring the use of lead-safe practices and other actions aimed at preventing lead poisoning. Under the rule, beginning April 22, 2010, contractors performing renovation, repair and painting projects that disturb lead-based paint in homes, child care facilities, and schools built before 1978 must be certified and must follow specific work practices to prevent lead contamination.

The training curriculum is an eight-hour class with two hours of hands-on training.

Shawna Page from "High Country Safety Training" will be the trainer. Call Frontline Glass or Shawna Page today to reserve your spot. Payment is required at that time of reservation. Only 12 spots are available, so call today to reserve your spot!

Where: Missoula Job Service
539 S. 3rd W. Missoula
